## Beaver Fire Emergency Closure Order Terminated

**YREKA, Calif., Sept. 28, 2014** –The Beaver Fire Emergency Closure Order has been terminated. Effective Sept. 28, 2014, this opens for public use nearly 124 square miles or 79,400 additional acres and the entire area around the Beaver Fire on National Forest land. Road and suppression repair work is largely completed, and the area is once again open to hunters and other forest users. Please be careful of standing dead trees, road conditions and other fire-area hazards.

Also note the recent announcement that fire use restrictions have been lifted forestwide.

Many roads, trails and lands within and adjacent to the Happy Camp Complex are still closed to protect public and firefighter safety. Firefighters are continuing work to fully contain the Happy Camp Complex, as well as complete suppression repair work—including removal of hazard trees. For details about the remaining Happy Camp Complex closure area, please visit <http://www.fs.usda.gov/alerts/klamath/alerts-notice>.

As conditions change, the Klamath National Forest will continue to update remaining closure area.
